Competition Format and Rules

As of THU 18 JAN 2024

Youth Olympic Competition Format

Five different snowboard disciplines are on the schedule at the Winter Youth Olympic Games Gangwon 2024: snowboard cross, snowboard halfpipe, snowboard slopestyle, snowboard big air and mixed team snowboard cross.

Differences between the FIS Junior World Championships and the Winter Youth Olympic Games

There are no major competition format differences between the FIS Junior World Championships and the Winter Youth Olympic Games.

Changes since the Winter Youth Olympic Games Lausanne 2020

Team ski-snowboard cross has been removed from the programme. Mixed team snowboard cross has been added to the programme. The quotas have changed.

Snowboard Cross

Youth Olympic Competition Format

There are two events in snowboard cross (SBX): men and women. Each event consists of two phases: group heats (qualification) and finals. A specially prepared course of jumps, turns, roller sections and banks test the competitors' skills. Bib numbers are assigned based upon the FIS Seeding List. A start gate is used to allow the competitors to enter the course.

The competition consists of group heats (two panels), semifinals, small final and the big final, divided into heats of up to four competitors.

In the group heats each competitor in the same pool competes against all others in a round robin scheme. Points are awarded in each heat based upon rank as follows: 1st=4 pts, 2nd=3 pts, 3rd=2 pts, 4th=1 pt.

The top four competitors from each panel of group heats qualify to the semifinals.

The top two competitors from each semifinal advance to the big final and the other competitors advance to the small final.

Ranking at the finish of a heat is determined by the order of crossing the finish line. If more than one competitor fails to complete the course by crossing the finish line, the competitor who made it further down the course will receive the higher rank.

If two or more competitors cross the finish line simultaneously, the ranking will be determined by the first part of the body or ski that crosses the finish line.

Sport Rules and Procedures

Based upon the ranking in the FIS Seeding List, each competitor will be given a seeding number which decides where the competitor is placed in the two panels of group heats.

Start gate lane choice for each heat is based on the competitor's seeding number.

A missed start is considered as DNS (Did Not Start). It is the competitor's responsibility to arrive at the start in time to compete in the next heat.

Additionally, competitors wear a coloured bib (red, green, blue and yellow) attributed before each start according to their bib number, with the best competitor being given red and the first lane option, second best green, etc.

Final Ranking: The competitors in the big final are ranked according to their finish order. The competitors in the small final are ranked 5th-8th by finish order. If the small final is not competed, losers of the semifinals are ranked first by their placing (3rd, 4th) then according to their seeding rank within their group.

Rankings 5-12 from each panel of group heats are ranked by their rank in their panel then according to their group heats points within their group.

Tie Break Rules

Group Heats: In case of an unbreakable tie in a heat, all competitors will receive the same number of points.

Unbreakable tie for qualifying place(s) after the group heats:

- In case of a tie between two competitors, the competitor who had the higher rank in their common heat will be ranked first. If they remain tied, the competitor with the higher seeding rank will advance.
- In case of a tie between three or more competitors, the tie will be broken based upon their seeding rank.

Semifinals: In case of an unbreakable tie for qualifying place(s) in the heats, the competitor(s) higher ranked on the FIS Seeding List will advance.

Big Final: In case of an unbreakable tie in the big final (and small final), they will remain tied

Penalties / Disqualification Rules

The penalties are: Did Not Start (DNS) for no show, Did Not Finish (DNF) for not crossing the finish line or missing a gate, Not Permitted to Start (NPS), Ranked As Last (RAL) for not complying with the rules and Disqualified for unsportsmanlike behaviour (DQB).

If a competitor is disqualified due to unsportsmanlike behaviour (DQB), his or her results from the entire competition will be removed and he or she will be listed at the bottom of the classification with no final ranking.

Protests / Appeals

Competitors marked as DQB will be announced and/or posted immediately after each heat at a designated area at the bottom and top of the course. Competitors may ask for a review of the heat, to the FIS representative directly after the end of the heat. Reviews after this time will not be accepted.

The jury will consist of the TD, chief of competition and the referee.

Snowboard Halfpipe and Snowboard Slopestyle

Youth Olympic Competition Format

There are two events in both snowboard halfpipe (HP) and snowboard slopestyle (SS): men and women. The snowboard halfpipe and snowboard slopestyle competitions are judged sports. Each competitor performs individual runs with several tricks, spins and flips.

There will be two runs in the qualification and three runs in the final. The best run is taken in account.

Qualification: The qualifications will consist of one or two heats. Each heat includes two runs. If there is one qualification heat, the 12 best competitors will advance to the final. If there are two qualification heats, the x best competitors from each heat and the y best results from the combined ranking of the heats will advance to the final (e.g. x=4, y=4 or x=5, y=2 or x=6, y=0).

Final: There will be 12 competitors in the final. They will be ranked according to the best of three runs.

Alternate formats: In the unlikely case that the event must be run faster (e.g. due to weather conditions or force majeure), alternate formats could be used (for example there could be no qualification, the final could be reduced to two runs, qualification with two heats and double-up judging).

Sport Rules and Procedures

The halfpipe is a snow pipe with a length of about 160 metres (525 feet), an average width (wall to wall) of about 18 to 20 metres (49-66 feet) and an average gradient of about 18 degrees. The concave walls of "Oversized Pipes" are up to 6.5 metres (22 feet) in height.

The slopestyle course is made up of six distinct sections: three rail (or "jib") features, and three jump features. The three rail features come at the start of the course, while the three jump sections will close out the competitors' runs. In halfpipe and slopestyle, the competitors will be judged on a combination of amplitude, technical difficulty, creativity and landings.

If a competitor does not start in any run, they are marked as DNS.

Qualification: the start order is based on the ICR (e.g. groups, zigzag) using the FIS Seeding List.

Final: the start order for the final is in reverse order of the results of the qualification.

Final ranking: All competitors who competed in the final are ranked first, followed by competitors who did not advance from the qualification.

Judging

The judging panel consists of six international judges who evaluate a competitor's performance according to the overall impression of the runs. The highest and lowest scores are discarded, and the four remaining scores are averaged for each run.

The judge evaluates the sequences of tricks, the amount of risk in the routine, and how the competitor uses the pipe.

Tie Break Rules

The judges will break ties, if any.

Protests / Appeals

Protests must be made in writing to the Jury within fifteen minutes of the end of the competition. The protest must be accompanied by a fee of CHF 100, which is refunded if the protest is upheld.

No protest against the judging is allowed.

Snowboard Big Air

Youth Olympic Competition Format

The snowboard big air competition is a judged sport. The competitors perform tricks on the BA jump by taking off from a kicker and aiming to attain sizable airtime, well executed tricks all while securing a clean solid landing. The competition format is based on two jumps in the qualification and three jumps in the final. The best jump counts in the qualification. The two best different jumps count in the finals.

There are two events in snowboard big air (BA): women and men.

Qualification: The qualifications will consist of one or two heats. Each heat includes two runs. If there is one qualification heat, the 12 best competitors will advance to the final. If there are two qualification heats, the x best competitors from each heat and the y best results from the combined ranking of the heats will advance to the final (e.g. x=4, y=4 or x=5, y=2 or x=6, y=0).

A competitor who is Disqualified (DSQ) in jump 1 is not permitted to start in jump 2.

Final: There will be 12 competitors in the final. They will be ranked according to their two best jumps of three.

Alternate formats: In the unlikely case that the event must be run faster (e.g. due to weather conditions or force majeure), alternate formats could be used (for example there will be no qualification, the final could be reduced to two jumps, qualification with two heats and double-up judging).

Sport Rules and Procedures

The snowboard big air course has an in-run approximately 38-45 metres high and a kicker approximately 4 metres high. The landing pitch is approximately 35-38 degrees. The distance to fly from the kicker to the sweet spot on the landing is around 22-30 metres.

Qualification: the start order is based on the ICR (e.g. groups, zigzag) using the FIS Seeding List.

Final: the start order for the final is in reverse order of the results of the qualification. There may be a new start list for jump 3 which will be in reverse order of the results after two jumps.

Final ranking: All competitors who competed in the final are ranked first, followed by competitors who did not advance from the qualification.

Judging

The judging panel consists of six international judges who evaluate a competitor's performance according to the overall impression of the jumps. The highest and lowest score are discarded and the four remaining scores are averaged for each jump.

The judge evaluates the amplitude, the difficulty of the trick, execution, progression and landing. The judges take falls into consideration and can deduct up to 30% of the points of the jump per judge for each fall.

Tie Break Rules

The judges will break ties, if any.

Protests / Appeals

Protests must be made in writing to the Jury within fifteen minutes of the end of the competition. The protest must be accompanied by a fee of CHF 100, which is refunded if the protest is upheld.

No protest against the judging is allowed.

Mixed Team Snowboard Cross

Youth Olympic Competition Format

Each team has two members. Men start first and women second.

The Mixed Team Snowboard Cross (BXT) consists of qualification (pre-heats) and finals.

The pre-heats, quarterfinals, semifinals, big final and small final are divided into heats of up to four teams. The bib numbers correspond to the teams' seeding rank (based on the sum of the FIS points of each team member).

Sport Rules and Procedures

Each team member will make one run - following each other as a relay. A classical cross start sequence is given for the wave 1 (men's run) - all start doors open simultaneously. When the results of wave 1 are confirmed, start doors will open for the wave 2 (women's run) with a delay corresponding to the wave 1 results. The maximum time delay between the first competitor crossing the finish line and the rest of the competitors from the same heat is limited by the penalty time. This time is calculated according to FIS rules. The first two teams whose second teammate crosses the finish line will advance to the next round.

If there are more than 16 teams entered, pre-heats will be organised with two teams progressing from each pre-heat to the quarterfinal (e.g. if 20 teams are entered, eight teams will go through pre-heats and four teams qualify to the quarterfinals).

The penalty time will be announced to the teams during the Team Captains' meeting.

Tie Break Rules

During the pre-heats, quarterfinals and semifinals, only ties for second place are broken, using the seeding order of the team, with the best seeded team being ranked first (lowest bib number). If more than two teams cannot finish, the team which completes the longest distance will progress. If they are still tied, the best seeded team will progress.

During the small final and the big final: Unbreakable ties remain.

Penalties / Disqualification Rules

The penalties are: Did Not Start (DNS) for no show, Did Not Finish (DNF) for not crossing the finish line or missing a gate and Disqualified for unsportsmanlike behaviour (DQB).

If a team is Disqualified due to unsportsmanlike behaviour (DQB), its results from the entire competition will be removed and the team will be listed at the bottom of the classification with no final ranking.

Warnings, yellow and red cards:

Contact in cross is common and can lead to a warning, a Yellow Card (RAL) or a Red Card (DSQ). Sanction for a determined interference shall be decided using the Guidelines of Intentional Contact (can be found on the FIS Website).

A warning and a system of coloured cards (Yellow Card and Red Card) is used to show the interfering competitor's degree of sanction.

If the competitor receives a second official warning during the same competition, it will automatically turn into a Yellow Card (RAL).

A competitor who receives a Yellow Card sanction will be ranked as last (RAL) in their heat. If a competitor receives a yellow card, the team is not allowed to continue in the competition.

All jury decisions regarding Interference must be confirmed prior to the start of a next heat, and cannot be protested.

Protests / Appeals

Teams marked as DQB will be announced and/or posted immediately after each heat at a designated area at the bottom and top of the course. Teams may ask for a review of the heat, to the FIS representative directly after the end of the heat. Reviews after this time will not be accepted.

The jury will consist of the TD, chief of competition and the referee.

Progression system: In the Group Heats all competitors compete in two pools with heats against each other (round robin). Competitors are awarded race points according to their finishing position in each heat (the winner is awarded 4 points irrespective of the number of starters). The first four ranked competitors in each pool proceed to the next phase. In the Semifinals the first two ranked competitors in each heat proceed to the Big Final. The third and fourth ranked competitors in each heat proceed to the Small

Note:

All competitors are seeded according to their FIS Seeding List Rank.

Official Communication
SNOWBOARD
WOMEN'S SNOWBOARD CROSS

Women's Snowboard Cross result summary have been corrected

Summary:

Final results for the SBX individual events for group heat results are changed. Tie breaking rules applies.

Details:

Ties in the final results for the group heats have to be broken first by the achieved group heat points and second by the better seeding rank. ICR 5502.3.6 and 5702.1

Issued by: FIS Technical Delegate

Time: 19:09

Progression system: In the Group Heats all competitors compete in two pools with heats against each other (round robin). Competitors are awarded race points according to their finishing position in each heat (the winner is awarded 4 points irrespective of the number of starters). The first four ranked competitors in each pool proceed to the next phase. In the Semifinals the first two ranked competitors in each heat proceed to the Big Final. The third and fourth ranked competitors in each heat proceed to the Small Final.

Official Communication SNOWBOARD MEN'S SNOWBOARD CROSS

Men's Snowboard Cross result summary have been corrected

Summary:

Final results for the SBX individual events for group heat results are changed. Tie breaking rules applies.

Details:

Ties in the final results for the group heats have to be broken first by the achieved group heat points and second by the better seeding rank. ICR 5502.3.6 and 5702.1

Issued by: FIS Technical Delegate

Note:
In Big Air the best 2 out of 3 jump format requires that the two scored tricks must be different. If a competitor performs the same trick twice or more during the same phase, only the highest score will count, and lower scores will not be considered. In order to differentiate between the different tricks they will be indicated with Jump IDs (JI): A, B or C.

For further information on Trick IDs, please consult: <https://www.fis-ski.com/DB/snowboard/park-and-pipe/tricks-list.html>

Note:
In Big Air the best 2 out of 3 jump format requires that the two scored tricks must be different. If a competitor performs the same trick twice or more during the same phase, only the highest score will count, and lower scores will not be considered. In order to differentiate between the different tricks they will be indicated with Jump IDs (JI): A, B or C.

For further information on Trick IDs, please consult: <https://www.fis-ski.com/DB/snowboard/park-and-pipe/tricks-list.html>

Sport Terminology

As of THU 18 JAN 2024

Snowboard Halfpipe, Snowboard Slopestyle and Snowboard Big Air

Term	Definition
1080 Rotation	For Snowboard Slopestyle and Snowboard Big Air, the snowboarder rotates 1080 degrees in the air and lands riding forward. In the halfpipe, the rider approaches the wall riding forward, rotates 1080 degrees, and lands riding fakie. Of course, it may also be performed switchstance by riding fakie and landing riding forward.
1260 Rotation	For Snowboard Slopestyle and Snowboard Big Air, the snowboarder rotates 1260 degrees in the air and lands riding fakie. In the halfpipe, the rider approaches the wall riding forward, rotates 1260 degrees, and lands riding forward.
1440 Rotation	For Snowboard Slopestyle and Snowboard Big Air, the snowboarder rotates 1440 degrees in the air and lands riding forward. In the halfpipe, the rider approaches the wall riding forward, rotates 1440 degrees, and lands riding fakie. Of course, it may also be performed switchstance by riding fakie and landing riding forward.
1620 Rotation	For Snowboard Slopestyle and Snowboard Big Air, the snowboarder rotates 1620 degrees in the air and lands riding fakie. In the halfpipe, the rider approaches the wall riding forward, rotates 1620 degrees, and lands riding forward.
180 Rotation	For Snowboard Slopestyle and Snowboard Big Air, the snowboarder rotates 180 degrees in the air and lands riding fakie. In the halfpipe, the rider approaches the wall riding forward, rotates 180 degrees, and lands riding forward.
1800 Rotation	For Snowboard Slopestyle and Snowboard Big Air, the snowboarder rotates 1800 degrees in the air and lands riding forward. In the halfpipe, the rider approaches the wall riding forward, rotates 1800 degrees, and lands riding fakie. Of course, it may also be performed switchstance by riding fakie and landing riding forward.
360 Rotation	For Snowboard Slopestyle and Snowboard Big Air, the snowboarder rotates 360 degrees in the air and lands riding forward. In the halfpipe, the rider approaches the wall riding forward, rotates 360 degrees, and lands riding fakie. This trick may also be performed by riding fakie and landing riding forward; in which case it is called a caballeria. See "Caballeria".
540 Rotation	For Snowboard Slopestyle and Snowboard Big Air, the snowboarder rotates 540 degrees in the air and lands riding fakie. In the halfpipe, the rider approaches the wall riding forward, rotates 540 degrees, and lands riding forward.
720 Rotation	For Snowboard Slopestyle and Snowboard Big Air, the snowboarder rotates 720 degrees in the air and lands riding forward. In the halfpipe, the rider approaches the wall riding forward, rotates 720 degrees, and lands riding fakie. Of course, it may also be performed switchstance by riding fakie and landing riding forward.
900 Rotation	For Snowboard Slopestyle and Snowboard Big Air, the snowboarder rotates 900 degrees in the air and lands riding fakie. In the halfpipe, the rider approaches the wall riding forward, rotates 900 degrees, and lands riding forward.
Air to Fakie	Any trick in the halfpipe where the wall is approached riding forward, no rotation is made, and the snowboarder lands riding backward.

Term	Definition
Alley Oop	A term used to describe any manoeuvre in the halfpipe where one rotates 180 or more degrees in an uphill direction; that is, rotating backside on the frontside wall, or rotating frontside on the backside wall.
Andrecht	A rear handed backside handplant with a front-handed grab.
Backside	The backside of the snowboard is the side where the heels rest; the backside of the snowboarder is the side to which his/her back faces.
Backside Air	Any air performed on the backside wall of the halfpipe.
Backside Rotation	Rotating clockwise for a regular-footer, and rotating counter-clockwise for a goofy-footer (e.g. backside 360). Note: When riding switch-stance, the exact reverse applies and a regular-footer will rotate counter-clockwise and a goofy-footer will rotate clockwise.
Backside Turn	A turn where the heel edge faces to the outside of the turn while the snowboard is riding on the toe edge. In other words, a right turn for a regular-footer and a left turn for a goofy-footer.
Backside Wall	When standing at the top of the halfpipe and looking down toward the bottom, the backside wall is the left wall for regular-footers and the right wall for goofy-footers. If you ride straight down the centre of the halfpipe your backside wall is behind you.
Bevel	The degree of angle to which the edges of a snowboard are tuned. Snowboards used for racing and carving should have a greater bevel than, say, a snowboard used in the halfpipe.
Blindside	A term given to any rotation where the snowboarder has oriented themselves "blind" to their takeoff or landing and must stretch to look over their shoulder. Such a technique usually increases the difficulty (e.g. a backside alley oop air in the halfpipe is often harder than a frontside alley oop air because it is blindside).
Bloody Dracula	A trick where you grab the tail of the board with both hands. Front hand behind the back to reach tail.
Boned	A term used to explain the emphasis of style in a trick. In other words, if someone "boned out a method" they would grab hard and create an emphasis of the manoeuvre such that his/her legs or arms may appear extended or stretched to a maximum degree. To "Bone" means to straighten one or both legs.
Bonk	The act of hitting an object with the snowboard (e.g. a tail bonk could be hitting a picnic table with the tail of the snowboard).
Caballerial (Cab)	A halfpipe trick that begins fakie, spins 360 degrees, and lands riding forward. Named after skateboarding guru Steve Caballero. Also see Half-Cab and Gay Twist.
Canadian Bacon Air	The rear hand reaches behind the rear leg to grab the toe edge between the bindings while the rear leg is boned.
Cannonball grab	A trick where you grab nose and tail at the same time.
Cant	A term used to describe the angle at which either foot is positioned medial or lateral from a vertical axis. In other words, how much angle beneath your feet from side to side bends your knees together or apart.
Chicken Salad Air	The rear hand reaches between the legs and grabs the heel edge between the bindings while the front leg is boned. Also, the wrist is rotated inward to complete the grab.
Corkscrew	A term used to describe a sideways rotation, either free-riding or in the halfpipe.

Term	Definition
Crail Air	The rear hand grabs the toe edge in front of the front foot while the rear leg is boned.
Crippler Air	An inverted aerial where the snowboarder performs a 180-degree flip. In other words, the rider approaches a halfpipe wall riding forward, becomes airborne, rotates 90 degrees, flips over in the air, rotates another 90 degrees, and lands riding forward.
Crooked Cop Air	Free-riding version of the mosquito air. See "Mosquito Air".
Crossbone Method Air	A method air where the back leg is boned. See "Method Air".
Detune	The process of dulling, slightly, the edges of the snowboard. Most people detune the edges around the nose and tail so they don't catch in the snow.
Double Grab	Basically, doing two separate tricks while in the air. One goes off of a jump, grabs the board one way, then grabs it in another way, then lands.
Double Handed Grab	Simultaneously grabbing the snowboard with both hands while in the air.
Duckfoot	A term used to describe stance angles with toes pointing outward, like a duck.
Effective Edge	The length of metal edge on the snowboard which touches the snow; it is the effective part which is used to make a turn. Therefore, it does not include the edge of the tip and tail.
Eggplant	A one-handed 180-degree backside rotated invert in which the front hand is planted on the lip of the halfpipe wall.
Elgeurial	An invert where the halfpipe wall is approached fakie, the rear hand is planted, a 360-degree backside rotation is made, and the rider lands going forward.
Fakie	A term for riding backward. See also Switchstance.
Fall Line	The path of least resistance down any given slope.
Flat Bottom	The area in a halfpipe between the two opposing transitional walls.
Flatground	Term used to describe tricks performed on a flat slope without obstacles (e.g. nose slide, blunt slide, tail wheelie, etc.)
Flex	Term used to describe the stiffness and pattern of how a snowboard flexes, i.e. stiff, medium, soft.
Free-riding	Snowboarding on all types of terrain for fun, i.e. no contests, no halfpipe, no gates, no rules, etc.
Freestyle Snowboarding	The kind of snowboarding which is mostly associated with riding the halfpipe, but which may also be used to describe any type of snowboarding, which includes tricks and manoeuvres.
Fresh Fish Air	The backside version of the stale fish. See "Stale Fish".
Front Foot	The foot mounted closest to the nose. A regular-footer's left foot and a goofy-footer's right foot.
Front Hand	The hand closest to the nose of the snowboard. In other words, the left hand for regular-footers and the right hand for goofy-footers.
Frontside	The frontside of the snowboard is the side where the toes rest; the frontside of the snowboarder is the side to which his/her chest faces.

Term	Definition
Frontside Air	A true frontside air is performed on the frontside wall of a halfpipe and the grab is Indy. The indy grab is with the rear hand between the bindings on the toe edge; in this particular manoeuvre, the front leg is usually boned. Technically there is no such thing as a "frontside indy," but sometimes it helps as a description. Also a frontside air can be any air performed on the frontside wall of the halfpipe.
Frontside Rotation	Rotating counter-clockwise for a regular-footer and rotating clockwise for a goofy-footer (e.g. frontside 360). Note: When riding switch-stance, the exact reverse applies and a regular-footer will rotate clockwise and a goofy-footer will rotate counter-clockwise.
Frontside Turn	A turn where the toe edge faces to the outside of the turn while the snowboard is riding on the heel edge. In other words, a left turn for a regular-footer and a right turn for a goofy-footer.
Frontside Wall	When standing at the top of the halfpipe and looking down toward the bottom, the frontside wall is on the skier's right for regular-footers and the skier's left for goofy-footers. If you were to ride straight down the centre of the halfpipe, you would be facing your frontside wall.
Goofy-Footed	Riding on a snowboard with the right foot in the forward position. In other words, the right foot is closest to the nose, furthest from the tail, and in between the left foot and the nose.
Grab	To grab either edge of the snowboard with one or both hands.
Haaken Flip	An invert done in the halfpipe where the rider approaches the frontside wall riding fakie. At the lip the rider flips backward into the pipe and rotates 720 degrees spinning frontside down the pipe.
Half-Cab	Cannot be performed in the halfpipe. It is the free-riding version of the caballerial in which one rotates 180 degrees from fakie to forward off of a straight jump. Also see "Caballerial" and "Gay Twist".
Halfpipe	A snow structure built for freestyle snowboarding. It consists of opposing radial transition walls of the same height and size. Snowboarders utilize the halfpipe to catch air and perform tricks by traveling back and forth from wall to wall while moving down the fall line.
Handplant (Backside)	A 180-degree handplant in which both hands, or the rear hand may be planted on the lip of the wall and the rotation is backside.
Handplant (Frontside)	A 180-degree handplant in which the front hand is planted on the lip of the wall and the rotation is frontside.
Handplant (Layback)	A 180-degree handplant in which the rear hand is planted on the lip of the wall and the rotation is frontside.
Hard Boots	Footwear designed for use in carving and racing. Boots are stiff and may use hard plastics to provide maximum support. Similar to alpine ski boots.
Heel Edge	A snowboard has two different edges. The heel edge is the one at which the heels rest.
High Back Bindings	A binding system that includes a highback component that extends perpendicularly from the board, lies flat against ones calf, and provides support for the back of the leg, especially for edging and turning on the heel edge. Invented by snowboarder Jeff Grell.
Ho Ho	A general term given to any two-handed handplant.
Hucker	One who throws himself/herself wildly through the air and does not land on his/her feet.

Term	Definition
Indy Air	A true "Indy Air" is performed backside with the rear hand grabbing between the bindings on the toe edge while the rear leg is boned. The term "Indy" may also be used to simply describe the location of the grab.
Invert	A trick where the head is beneath the level of the board and the snowboarder balances on one or two hands.
Inverted 180	See "Crippler".
Inverted 540	See "McTwist".
Inverted 720 (720 McTwist)	An inverted aerial where the snowboarder performs a 720-degree rotational flip. In other words, the snowboarder approaches the wall riding forward, becomes airborne, rotates 720 degrees in a backside direction while performing a front flip, and lands riding fakie.
Inverted Aerial	A manoeuvre where the snowboarder becomes airborne and upside down at any given moment.
Japan Air	The front hand grabs the toe edge in between the feet and the front knee is pulled to the board.
Jib	Describes a type of riding that most closely resembles street skateboarding. "Jibbers" commonly slide rails, bonk trees and perform flatground tricks.
J-Tear	An invert where the athlete rotates roughly 540 degrees in a frontside direction while planting one or both hands on the lip of the wall. Invented by Mike Jacoby.
Late	A term used to describe incorporating something into a trick just before its completion and landing. (e.g. "A Method to Late 180" would mean doing a method air and at the last possible second rotating 180 degrees and landing fakie).
Leash	A retention device used to attach the snowboard to the front foot so that it doesn't run away.
Lien Air	The front hand grabs the heel edge and the body leans out over the nose. Must be done on the frontside wall. Named after skateboarder Neil Blender (Lien is Neil spelled backwards).
Lip	The top edge portion of the halfpipe wall.
Lip Trick	Any trick performed on or near the lip of the wall of the halfpipe.
McEgg	An invert where the rider plants the front hand on the wall, rotates 540 degrees in a backside direction, and lands riding forward.
McTwist	An inverted aerial where the rider performs a 540-degree rotational flip. In other words, the rider approaches the halfpipe wall riding forward, becomes airborne, rotates 540 degrees in a backside direction while performing a front flip, and lands riding forward. Named after skateboarder Mike McGill.
Melonchollie Air	The front hand reaches behind the front leg and grabs the heel edge in-between the bindings while the front leg is boned.
Method Air	The front hand grabs the heel edge, both knees are bent, and the board is pulled to level of the head.
Michaelchuck	An invert done in the halfpipe on the backside wall where the rider does a back flip with a 180-degree backside rotation.

Term	Definition
Miller Flip	An invert where the halfpipe wall is approached riding forward, the front hand is planted, a 360-degree frontside rotation is made and the rider lands riding fakie.
Misty Flip	The free-riding version of the McTwist. It is a partially inverted 540-degree front flip that is performed off of a straight jump. Therefore the approach is riding forward and the landing is fakie.
Mosquito Air	A halfpipe trick in which the front hand reaches behind the front leg and grabs the heel edge between the bindings. The front knee is then bent to touch the board tuck-knee style.
Mute Air	The front hand grabs the toe edge either between the toes or in front of the front foot.
Nollie	Much like an ollie, only you spring off of your nose instead of your tail. See "Ollie".
Nose	The front tip of the snowboard.
Nose Grab Air	The front hand grabs the nose of the snowboard.
Nose Poke Air	Any manoeuvre where you bone your front leg and "poke" the nose of the snowboard in a direction away from your body, usually while grabbing (e.g. Indy Nose Poke Air).
Nose Slide	To slide along the ground or an object solely on the nose of the snowboard.
Nuclear Air	The rear hand reaches across the front of the body and grabs the heel edge in front of the front foot.
Ollie	A method to obtain air without a jump by first lifting the front foot then lifting the rear foot as you spring off of the tail.
Palmer Air	A kind of method where the grab is near the nose, the board is pulled across the front of the body and the nose is pointed downward. Named after Shaun Palmer.
Phillips 66	An invert where the rider approaches the halfpipe wall riding fakie, plants the rear hand on the lip of the wall while doing a "front flip" and lands in the transition riding forward. Named after skateboarder Jeff Phillips.
Plate Binding	A binding system in which hard boots, similar to those used in downhill skiing, are attached to the board by a flat "plate." Similar to ski bindings. However, most snowboard bindings are non-releasable.
Pop Tart	Airing from fakie to forward in the halfpipe without rotation.
Quarterpipe	A halfpipe with only one wall. In other words, a snow-sculpted shape that contains a transition and a vertical, and is used as a jump to catch air.
Rail	There are two rails on a snowboard, each comprised of a sidewall and an edge.
Rail Slide	To slide the rails of the snowboard onto almost anything, other than a flat slope. Some good rail sliding surfaces include: fallen tree branches/logs, the coping of a halfpipe, a picnic table.
Rear Foot	The foot mounted closest to the tail. A regular-footer's right foot and a goofy-footer's left foot.
Rear Hand	The trailing hand closest to the tail of the snowboard. In other words, the right hand for regular-footers and the left hand for goofy-footers.
Regular-Footed	Riding on a snowboard with the left foot in the forward position. In other words, the left foot is closest to the nose, furthest from the tail, and in between the right foot and the nose.

Term	Definition
Revert	To switch from riding fakie to forward, or from forward to fakie, usually while the snowboard is still touching the ground.
Roast Beef Air	The rear hand reaches between the legs and grabs the heel edge between the bindings while the rear leg is boned.
Rocket Air	The front hand grabs the toe edge in front of the front foot (mute) and the back leg is boned while the board points perpendicular to the ground.
Rodeo Flip	An invert done riding fakie or forward where the rider rotates frontside or backside while flipping. Can be done with a 540, 720, 900 and 1080.
Rolling down the windows	A phrase used to describe when someone is caught off balance and they rotate their arms wildly in the air to try and recover.
Rusty Trombone	A double grab with Roast beef and Nose grab at the same time.
Sato Flip	An invert done on the frontside wall of a halfpipe where the rider does a front flip with a 180-degree rotation frontside.
Seatbelt Air	The front hand reaches across the body and grabs the tail while the front leg is boned.
Shifty Air	A grabless trick where the upper torso and lower body are twisted in opposite directions and then returned to normal. Usually the front leg is boned.
Sick (Slang)	An expression used to describe something really exceptional--clothing, a trick, a run, etc.
Sidecut Radius	The measure (usually in cm) of the circle radius to which the sidecut of a snowboard corresponds. A small circle or sidecut (under 900 cm) will make tighter turns than a large sidecut (over 900cm).
Sintered Base	High molecular-weight base formed by the heating and compression of small fragments of P-tex. Sintered bases absorb and hold wax better and are more durable than extruded bases, i.e. they are faster.
Sketching	The act of riding along precariously and nearly falling.
Slob Air	The front hand grabs mute, the back leg is boned and the board is kept parallel with the ground.
Soft Boots	Footwear designed for use in freestyle and free-ride snowboarding. Boots are soft and pliable and allow a large range of motion while maintaining sufficient support.
Stalefish Air	The rear hand grabs the heel edge behind the rear leg and in between the bindings while the rear leg is boned.
Stance	The position of one's feet on the snowboard. Includes: stance types, such as regular or goofy, and also stance specifications, such as widths and angles.
Step-In Binding	Binding system in which no major manual adjustment is needed to attach and detach the boot from the binding. You simply "step in" and then pull a lever or a latch to "step out." It has been developed for hard as well as soft boot binding configurations.
Stiffy Air	Any manoeuvre in which both legs are boned and a grab is incorporated (e.g. Mute Stiffy).
Switchstance (Switch)	The term for performing a trick while riding backward. It is important to note that it's a specific term given to a manoeuvre that is performed exactly like riding forward. The only difference is the rider is going backward as if he/she were a goofy-footer instead of a regular-footer, or vice-

Term	Definition
	versa, hence the term "switched stance." Thus, any trick may be performed switchstance. Also, see Fakie.
Tail	The rear tip of the snowboard.
Tail Grab Air	The rear hand grabs the tail of the snowboard.
Tail Poke	Any manoeuvre where you bone your rear leg and "poke" the tail of the snowboard in a direction away from your body, usually while grabbing.
Tail Slide	To slide along the ground or an object solely on the tail of the snowboard.
Tail Wheelie	To ride solely on the tail of the snowboard with the nose in the air.
Taipan Air	The front hand reaches behind the front foot and grabs the toe edge between the bindings. The front knee is then bent to touch the board tuck-knee style.
Toe Edge	A snowboard has two different edges. The toe edge is the one at which the toes rest.
Transition (Tranny)	The radial curved section of a halfpipe wall between the flat bottom and the vertical. A snowboarder pumps and rides the transition to gain speed, to catch air and to land.
Traverse	To ride perpendicular to the fall line. A halfpipe rider traverses from wall to wall in the halfpipe.
Tuck Knee	A technique where one knee is bent and the ankle bent sideways to touch the knee to the snowboard between the bindings (e.g. Tuck Knee Indy Air).
Twin Tip	A type of snowboard designed for freestyle snowboarding. It has an identical tip and a tail so that the board may be ridden similarly in both directions.
Variety in Snowboard Big Air with scoring	In Snowboard Big Air the best 2 out of 3 jump format requires that the two scored tricks must be different. If a competitor performs the same trick twice or more during the same phase, only the highest score will count, and lower scores will not be considered. In order to differentiate between the different tricks they will be indicated with A, B or C on the TV graphics and results as follows: 1st jump: trick A performed: Judges Identify the trick performed and gauge the major characteristics of the trick. 2nd jump: trick B performed that must have different characteristics from trick A which the judges identify. 3rd jump: trick C performed that may have different characteristics from tricks A and B which the judges identify. In some cases, competitors execute only 2 different tricks, an A and a B and on the 3rd jump they repeat one of these tricks attempting to improve the score. In other cases, if they execute correctly tricks A and B, they will try to better the overall score by executing a more complex and difficult C trick, knowing that only the 2 highest scores of the 3 different tricks will count towards the final score
Vertical (Vert)	The vertical top portion of a wall in a halfpipe that allows the snowboarder to fly straight up into the air and not out of the pipe or into the pipe.
Wall	The wall of a halfpipe is comprised of a transition and a vertical section.
Wet Cat	A 900-degree rotation on a McTwist.
Yolo flip	A cab 1440 double cork.

Tricks on Rails, Boxes and other Features in Snowboard Slopestyle

Term	Definition
180/270/360/450/ 540/630/720 off or on a rail feature	Rotation on or off any feature in the Snowboard Slopestyle with the degrees from take-off to preforming different tricks on rail
50-50	A slide in which a snowboarder rides straight along a rail or other obstacle.
Boardslide	A slide performed where the riders leading foot passes over the rail on approach, with his/her snowboard traveling perpendicular along the rail or other obstacle. When performing a frontside boardslide, the snowboarder is facing uphill. When performing a backside boardslide, a snowboarder is facing downhill. This is often confusing to new riders learning the trick because with a frontside boardslide you are moving backward and with a backside boardslide you are moving forward.
Bonk	To tap an feature or object in the Snowboard Slopestyle with your board.
Gap	A part of a trick to jump over some part of the rail and touch the rail on the end.
Lipslide	A slide performed where the riders rear foot passes over the rail on approach, with his/her snowboard traveling perpendicular along the rail or other obstacle. When performing a frontside lipslide, the snowboarder is facing downhill. When performing a backside lipslide, a snowboarder is facing uphill.
Nosepress	A trick performed by sliding along an obstacle, with pressure being put on the nose of the board, such that the tail of the board is raised in the air.
Noseslide	Similar to a boardslide or lipslide, but only the nose of the board is on the feature.
Pretzel	Concluding a slide trick with a 270° spin opposite the direction in which you did a rotation during the trick's initiation. (on or off).
Sameway or Bagel	Like a Pretzel, but spinning 270° off the rail in the same direction as you got on.
Tailpress	A trick performed by sliding along an obstacle, with pressure being put on the tail of the board, such that the nose of the board is raised in the air.
Tailslide	Similar to a boardslide or lipslide, but only the tail of the board is on the feature.

Snowboard Cross and Mixed Team Snowboard Cross

Term	Definition
Backside Turn	A turn where the heel edge faces to the inside of the turn while the snowboard is riding on the heel edge. In other words, a left turn for a regular-footer and a right turn for a goofy-footer.
Bank	An inclined curve out of snow which helps to make a turn.
Bevel	The degree of angle to which the edges of a snowboard are tuned. Snowboards used for racing and carving should have a greater bevel than, say, a snowboard used in the halfpipe.
Corner	A jump with a sharp turn on landing.
Detune	The process of dulling, slightly, the edges of the snowboard. Most people detune the edges around the nose and tail so they don't catch in the snow.
Effective Edge	The length of metal edge on the snowboard which touches the snow; it is the effective part which is used to make a turn. Therefore, it does not include the edge of the tip and tail.
Fakie	A term for riding backward. See also Switchstance.
Flex	Term used to describe the stiffness and pattern of how a snowboard flexes, i.e. stiff, medium, soft.
Free-riding	Snowboarding on all types of terrain for fun, i.e. no contests, no halfpipe, no gates, no rules, etc.
Front Foot	The foot mounted closest to the nose. A regular-footer's left foot and a goofy-footer's right foot.
Frontside	The frontside of the snowboard is the side where the toes rest; the frontside of the snowboarder is the side to which his/her chest faces.
Frontside Tu	A turn where the toe edge faces to the inside of the turn while the snowboard is riding on the toe edge. In other words, a right turn for a regular-footer and a leftturn for a goofy-footer.
Goofy-footed	Riding on a snowboard with the right foot in the forward position. In other words, the right foot is closest to the nose, furthest from the tail, and in between the left foot and the nose.
Hard Boots	Footwear designed for use in carving and racing. Boots are stiff and may use hard plastics to provide maximum support. Similar to alpine ski boots.
Heel Edge	A snowboard has two different edges. The heel edge is the one at which the heels rest.
Helmet	A hard cover protection for the head.
Kicker	Take Off point for all varieties of jumps.
Leash	A retention device used to attach the snowboard to the front foot so that it doesn't run away.
Obstacle	Obstruction hindrance out of snow.
Plate Binding	A binding system in which hard boots, similar to those used in downhill skiing, are attached to the board by a flat "plate." Similar to ski bindings. However, most snowboard bindings are non-releasable.
Pond	A water feature where the athletes either jump or slide (approximately 10-12 meters long, 4-6 meters wide).

Term	Definition
Protector	Plastic protection for various parts of the body (i.e. shoulders, arms, back, legs).
Rail	There are two rails on a snowboard, each comprised of a sidewall and an edge.
Rear Foot	The foot mounted closest to the tail. A regular-footer's right foot and a goofy-footer's left foot.
Rear Hand	The trailing hand closest to the tail of the snowboard. In other words, the right hand for regular-footers and the left hand for goofy-footers.
Regular-Footer	Riding on a snowboard with the left foot in the forward position. In other words, the left foot is closest to the nose, furthest from the tail, and in between the right foot and the nose.
Revert	To switch from riding fakie to forward, or from forward to fakie, usually while the snowboard is still touching the ground.
Roller	A "wave or series of waves" (gentle jumps) which the athlete can either absorb or jump.
Sidecut Radius	The measure (usually in cm) of the circle radius to which the sidecut of a snowboard corresponds. A small circle or sidecut (under 900 cm) will make tighter turns than a large sidecut (over 900cm).
Sintered Base	High molecular-weight base formed by the heating and compression of small fragments of P-tex. Sintered bases absorb and hold wax better and are more durable than extruded bases, i.e. they are faster.
Snow Seed	A group of competitors selected from those with low seeding ranks, who start before the first competitor on the start list, when the jury has decided that excess loose snow on the course would disadvantage the early starters
Stance	The position of one's feet on the snowboard. Includes: stance types, such as regular or goofy, and also stance specifications, such as widths and angles.
Step-Down (Pro Jump)	A jump where the landing is lower than the starting point.
Step-In Binding	Binding system in which no major manual adjustment is needed to attach and detach the boot from the binding. You simply "step in" and then pull a lever or a latch to "step out." It has been developed for hard as well as soft boot binding configurations.
Step-Up	A jump where the landing is higher than the starting point.
Table	A jump where the landing is on the same level or a little higher than the kicker.
Tail	The rear tip of the snowboard.
Toe Edge	A snowboard has two different edges. The toe edge is the one at which the toes rest.
Traverse	To ride perpendicular to the fall line. A halfpipe rider traverses from wall to wall in the halfpipe.
